📍 Mumbai, India

SUMMARY

I am a passionate full-stack developer specializing in building responsive and interactive web applications. With a strong background in UI/UX design and cloud technologies, I strive to deliver seamless user experiences. Throughout my academic journey and internship, I have honed my skills in languages such as C++ and JavaScript, as well as frameworks like React and Flutter. My commitment to continuous learning drives my engagement in extracurricular activities and coding competitions.

EXPERIENCE

App Development Intern

Compozent

📅 12/2024 - 01/2025 📍 Mumbai, India

A company focused on mobile application development

- Developed and tested mobile applications using Flutter and Dart in a collaborative team environment
- Assisted in UI/UX design implementation and responsive layout development for cross-platform compatibility
- Participated in code reviews, debugging, and feature integration under senior developer guidance
